

Firm Overview

Actionable Strategies is a boutique consulting firm with a unique perspective of solution offerings and thought leadership. We specialize in key items on the executive agenda and solutions that drive performance improvement, lower total costs and manage risk.

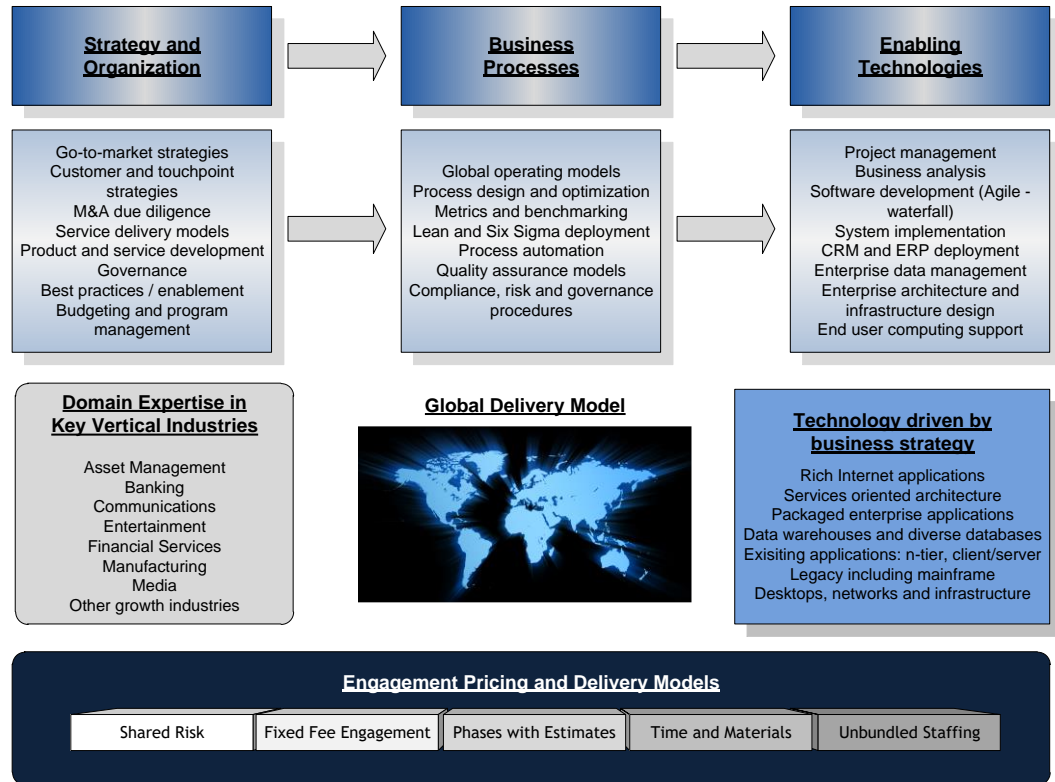

From enabling revenue growth to improving margins across an enterprise, our focus is on aligning process and technology to business impacting needs.

By applying best practices and cross industry experience, we enable our clients to formulate winning strategies and execute them effectively. Our practitioners have proven themselves in business strategy, globalization, alignment, turnarounds and M&A. They have created the operational organizations, processes and technologies to provide competitive advantage, market agility and global scale.

Our approach combines agility with full project lifecycles and proven delivery methodologies to ensure the most efficient delivery of an optimal solution. By applying experience with a variety of disciplines including Lean, Six Sigma and Agile, we are able to lower the total cost profile and not sacrifice quality or throughput for lower unit cost.

Agile Global Delivery

Based in the New York City area with correspondent offices in Washington DC, England, India, Romania, Turkey and Saudi Arabia, and a joint venture in China, the firm's team has delivered hundreds of successful engagements globally in addition to their work inside leading corporations. Our strategic alliances also enable us to execute projects in all major business cities.
